

**Domiciliation possibilities
for asylum seekers who arrived recently in France without family**

Warning ! We provide all those addresses without giving any guarantee of domiciliation. Reception capacities are often limited regarding the important number of people seeking for an address.

Please note :

You don't have to get an address through a domiciliation centre. You can be domiciled and use the mailing address of an acquaintance or a relative you trust **if this situation is to last for long** and **if you don't have to pay for it**, and if several other people aren't already using this address as well. Besides, anyone who provides a home or an address to an asylum seeker has never had to deal with the police.

How can I be domiciled at an acquaintance or relative's address ?

The host must make sure to have or make :

- a « hosting certificate » (called « attestation de domiciliation » in French), which is a simple letter with their address and signature on it
- a photocopy of their ID
- a photocopy of their **last** electricity bill with their name on it (less than 3 months)
